Meet our new Platform

Providing humanitarian
aid to IDPs

Find nearby IDP camp →

Why we built this Platform

The growing displacement of individuals during wars and calamities has contributed to the rising peril of them being trapped in zones of conflict, caught in the cross-fire and at risk of being used as pawns, targets or human shields by the belligerents, rendering them subject to abuse of their basic human rights.

Our solution

The Problem

These IDPs (internally displaced persons) often live in camps with little or no access to mainstream services in urban areas.

The Solution

Troeve, a platform to direct the internally displaced to their nearest refugee camps, where they will be provided with basic amenities, thus helping them find durable solutions for shelter.
